## Superhero running costume

D. B Radio, as the station is popularly known, developed from the Windward Islands Broadcasting Service (WIBS) to Radio Dominica and, finally, to Dominica Broadcasting Corporation. This transition has seen huge progress in development within the service; Timely improvement in AM and upgrade of FM service. WIBS was launched in 1955 to provide a radio service on a part-time basis to four Windward Islands, Dominica, Grenada, St Lucia and St Vincent. W.I., B. Dominica operates from a small chamber behind the public library on Victoria Street and at the time no one dreamed of that small unit dynamic broadcasting machine we now d. B is being developed in radio phones. Radio Dominica Dominica was founded in 1971 by the Dominican government and operated as part of Dominica's public service to provide programs of an informative, educational and recreational nature. The Dominica Broadcasting Corporation Act No. 33 of 1975 was gazetted on December 11, 1975. The aim was to make provision for radio and television broadcasting services in Dominica, to set up a special board for that purpose and the objectives associated with it. According to the Act, the function of the Corporation shall be to provide in accordance with the provisions of this Act, television and high quality radio broadcasting services, both as transmission and as transmitted case, for so many of Dominica as may be reasonably feasible from time to time. In January, 1979, the Act was amended to appoint the Broadcasting Director to general supervision of the State Broadcasting and Information Services, and two (2) managers, one for radio broadcasting and the other for television broadcasting. In that year Hurricane David destroyed the television service, leaving only the corporation's radio service of operations. During that period, DBS radio broadcasts at wavelengths of 595 AM and 88.1FM. The station was at seventeen (17) hours a day, sixteen from Mondays to Saturdays and Sundays and a half hour (16 1/2) hours. Many managers and staff members have gone through the halls of DBS radio, some to cross greater heights, some to move on to other areas of effort and others to return to a second term of service to the corporation. DBS – The nation's station is destined to continue, as long as who knows when – to educate, inform and entertain the nation in detail with the introduction of the World Wide Web!
